## **DIT Cart**

**2x 24" Sony PVM OLED** - Rec-709 Calibrated, onset calibration

**Live Colour Grading** - Livegrade Pro, FSI Box-IO

**2-4 Camera Support** - Video routing and graded passthrough

**Exposure Monitoring** - Waveform, LOG monitoring, iris control

**QC/Colour Correction** - Silverstack XT OCM backup with checksum

**Onset Data Workflow** - SSD Raid, SSD shuttle drives

**DIT Reports** - Still library, camera metadata, dailies

## **Technical Support Onset**

Experience and flexibility for a number of camera platforms, from Sony, Arri Alexa, RED, and Blackmagic. The tools and knowledge to bring efficiency and support to digital production, as well as integration and communication between set and post production. Flexible and adaptable to the rapid nature of onset challenges.

## **Exposure and QC Monitoring**

Understanding the need for accurate and transparent QC practices onset, ensuring that the captured digital image is of the highest quality. Through hardware and software tools to create the best decision making environment onset.

## **Secure Data Backup**

With Silverstack, Original Camera Media is secured using checksum backup, ensuring a transparent and efficient data pipeline. CDL and Metadata transfer allows Dailies to accurately represent the creative intent from set. SSD shuttle drives for fast and safe data transfer, with RAID backups ensuring data integrity.

## **Adaptability and Experience**

With experience on productions both large and small, adaptability is key to consistency and success. Working towards the creative vision of the production, bringing technical solutions to the challenges of digital cinema.

## **Kit Overview**

Inovativ Voyager 36	Pomfort Livegrade Pro
Sony PVM A250 V2 OLED	Davinci Resolve
Inovativ Insight Monitor System	Silverstack XT
Mac mini M1	Calman Pro
Macbook Pro 14 M1 Pro	X-Rite i1 Pro 3
DIT/Video Truck (Isuzu 4.5T)	Tangent Ripple Grading Panel
Samsung SSD 4Tb Shuttle Drives	Blackmagic VA 12G
Honda 2k Generator	DIT Shelter
