Nathan fell in love with filmmaking at a very young age. He started out acting, but soon realised that working behind the camera was where he was truly happy.

Nathan has now worked in the film industry for over 30 years across multiple award-winning feature films and television series, gaining great experience and insight along the way. He has worked closely with many of Australia's top directors including Justin Kurzel on *Snowtown* and *Nitram*, Robert Connolly on *Balibo*, and Daina Reid on *Run Rabbit Run*.
