I have a background of working in Coordinating and Managerial roles across departments including Art Department, Sustainability and Digital Asset Management which has given me a broad overview of the challenges and requirements across all departments and necessitated fostering good working relationships and communication with all HODs and Producers.

I've spent the last 3 years gaining experience with Sustainability for the screen industry practices, including advanced training with Amazon MGM Studios in Toronto. I would like to bring this experience and drive for sustainability to my next departmental role.

**LONG FORM FILM & TV EMPLOYMENT HISTORY**

**2024 - 2025: Sustainability Supervisor**

**ALL HER FAULT - NBCU/Carnival/Matchbox (Peacock)**
