## Video Assist Operator

---

Aaron has worked in the film and television industry since 2000, initially in the UK before relocating to Australia in 2004. In addition to the feature films and tv productions listed below Aaron has worked on numerous TV commercials for Australian and international companies. Aaron now focuses on that sector of the industry, supplying not only his services as a Video Assist Operator but also state of the art video assist equipment based around the Qtake HD software platform.
