TRACKING VEHICLES

Mini EV Tracking Scooter

The Mini EV has a maximum payload of 205kg, Maximum speed 15km/h; and the speed can be set for repeated passes.. The Mini EV is designed for shooting in narrow pathways, corridors etc and can fit through a standard doorway.. Can shoot forwards, backwards and hand held. Can be used with springarm or steadycam options.

Polaris EV tracking vehicle

Smooth and quiet, versatile tracking vehicle. Ideal for running and cycling shots, with a maximum speed of 40km/h. Able to accommodate steady cam, hard mounts or hand held. Customised aluminum body allows for customised rigs and shooting from all angles. Vehicle can be used with jib / stabilised head combination. Operates in 4WD, 2WD and turf driving modes. Smooth tyres for grass and pavements, offroad tyres for beach or rough terrain.

EZGO Golf Cart

Four seat vehicle with utility tray. Can shoot front and rear. Suitable for carrying equipment as well as shooting. Ideal for sensitive terrain conditions such as parks and gardens. Maximum speed 25km/h.

Polaris RZR 4seat offroad buggy.

Offroad tracking vehicle with long travel suspension, ideal for rough terrain situations. Post mounts accommodate front and rear shooting options. Can travel 80km/h
